Wolf Creek Pine Run Grist Mill

Relive the start of the Industrial Revolution by touring an authentic 1831 era operating grist mill. It was re-located from a site north of Loudonville. Now a working museum that preserves a vanishing part of our heritage for future generations. Also explore the Fromme cabin, the Mill's welcome center. This is all set amongst a backdrop of a lush forest, tree-covered hills, and babbling stream. Walk along the scenic trails. The adventurers of the group may want to climb up to the viewing platform for great views - a challenging climb. **1 hour**
